It's not like me to bring the darkness to the light  
But with the way you make me feel  
I can do what's right

I've seen love die and I've seen the teary eyes  
So when we fight I know  
That you have to try

And I love the way you say my name with a smile  
And now this is feeling like my heart is on trial  
We find the defendant guilty  
Tonight

So I'll stand up and bleed my heart case  
To the girl that's holding my heart like a hand grenade  
I don't think she realizes how much I need her  
I'll do anything just so I can see her

And I love the way you say my name with a smile  
And now this is feeling like my heart is on trial  
We find the defendant guilty  
Tonight

I'm not sleeping  
But I'm dreaming of your pretty face  
And now I'm hoping in a real dark place  
You were my angel, fallen from grace  
But you don't love me so I'll rest my case

And I love the way you say my name with a smile  
And now this is feeling like my heart is on trial  
We find the defendant guilty  
Tonight

And I love the way you say my name with a smile  
And now this is feeling like my heart is on trial  
We find the defendant guilty  
Tonight
