ONE MORE KISS

Hey baby, you've been gone away
for so long now
I don't think I've been alright
I need you here somehow
I still think of you most nights and wonder
Do you miss me too?
Sometimes I just fall to the ground
In life dreams don't always come true

Feels like we were stealing moments
from another life
Just to spend a little more time
In my arms you fit just right

Hey baby we're meant for each other
How do you explain this?
In my arms you would stay for awhile
and plead for one more kiss
I know we're meant for each other
How do you explain this?
Won't you stay with me a little while
I need one more Kiss

Hey baby you're the drug that keeps me alive
A warm and fuzzy feeling inside
When I looked into your eyes
You could stay with me
Stay as long as you need
We could laugh and play
We could run away

Feels like we were stealing moments
from another life
Just to spend a little more time
In my arms you fit just right

Hey baby we're meant for each other
How do you explain this?
In my arms you would stay for awhile
and plead for one more kiss

I know we re meant for each other
How do you explain this?
Wont you stay with me a little while
I need one more Kiss
