"Go With The Flow"

Have you ever tried
running against the wind?
Then you know how tired
you'll very quickly get.
The stress, the strain
of fussing and fighting everyday
increases the tension
of this rubber band world we're living in.

Life can be so hard
when you're swimming
against the current.

You know you won't get far
from where you started
unless you learn
to go with the flow.

Imagine floating down river
or a cumulus blowing
along with the wind.
The time is now or never
so just relax,
let go.
Just go with the flow.
Go with the flow

There's absolutely no reason why
we can't all be friendly.
We're calling ourselves civilized
but we're only pretending
that we know the difference
between what is wrong or right

Well, I don't know about you
but what I'll do
is try to visualize
a life that is easy,
nice and breezy,
oh so pleasing to the senses.
It's not that hard once you get started.

Don't you think
that it's time
that you learned
to go with the flow.

Imagine floating down river
or a cumulus blowing
along with the wind.
The time is now or never
so just relax,
let go.
Just go with the flow.
Go with the flow

go with the flow

oh oh

go with the flow.
