### "Hush"

Rock-a-bye my little baby.  
Sleep my little child.  
While this world is going crazy  
Rest your mind awhile.

How about a bedtime story  
If you're feeling rough.  
Dream about a brand new morning  
Filled with lots of love.

Hush.  
Everything's gonna be alright.  
Close your eyes and dream.  
I'll protect you through the night.

Go to sleep my little angel.  
Morning comes too soon.  
Spending hours lying wakeful  
Is of little use.

Lose yourself in dreams, unfettered  
by famine, war and strife.  
This nightmare world must soon get better.  
So, don't be terrified.

Hush.  
Shhhh.  
Everything's gonna be alright.  
Close your eyes and dream.  
I'll protect you through the night.

Rock-a-bye my little baby.  
Sleep my little child.  
It's time to close your eyes.  
Say goodnight.
