I thought of this song while I was sleeping in your arms  
Late last night night  
What I wanted to say was I love you forever  
But it didn't come out right  
All I could say was I'm cold give me covers  
Could you turn out the light?  
And we laughed at ourselves for our serious nature  
And what could have been a fight

You know I've been watching you all day long  
The way we look at each other  
The way you sing this song  
I can't wait till we get home  
Because that's when I know  
At the end of the day I'm the one who calls you baby

When you walk down the street they all stop and they  
stare  
You know the way it is out there  
He's either looking at you or he's looking at me  
So get in the car, give me the keys  
Let's drive down the middle of the city block  
Roll down these windows and show them what I got  
I found this sweet thing out there  
But she's mine and not yours so what do you care?

You know I've been watching you all day long  
The way we look at each other  
The way you sing this song  
I can't wait till we get home  
Because that's when I know  
At the end of the day I'm the one who calls you baby

I'm the one who calls you baby in the morning  
I'm the who gets to tuck you in at night  
I'm the one who says baby forever Baby together  
Everything's alright  
Everything's alright

Thought of this song while I was sleeping in your arms  
Late last night

What I wanted to say was I love you forever  
But it didn't come out right

You know I've been watching you all day long  
The way we look at each other  
The way you sing this song  
I can't wait till we get home  
Because that's when I know  
At the end of the day I'm the one who calls you baby
