"Carry Me"

I am edging toward the ocean
One step at a time
I am holding my breath watching for water
Honey give me a sign
A wink of an eye I'm on to something
Walk away I'm landlocked as I can be

want to be the one who discovers
I want to feel the water carry me
Carry me to you (I'm gonna find you)
Carry me to you (you're all I need)
Carry me to you (I'm gonna save you)
Carry me to you (come back to me)

So I am searching on the fault lines
For a crack in the door
A tremor I know I'm on to something
A quake and I found just what I came here for
Come back to me
I almost lost you

Carry me to you (I'm gonna find you)
Carry me to you (you're all I need)
Carry me to you (I'm gonna save you)
Carry me to you (come back to me)

You're all I need
Come back to me
I almost lost you, come back
Come back to me

Carry me to you (I'm gonna find you)
Carry me to you (you're all I need)
Carry me to you (I'm gonna save you)
Carry me to you (come back to me)
