Blast my way right through your eyes with these words I  
feel alright:

"I'm leaving you tonight".

Taking me for granted came so easy I was always  
there

you can't deny it

Guess it comes as a shock to you, over and over "what  
did I do"

Can't explain it I feel it I need to believe me I'm leaving  
you

Your words fall on my heart and I'm losing ground

Your tears tears me apart but I don't want to turn  
around

Guess this is what I get for my leaving you...

Guess this is what I get for my leaving you...  
right now

Makeup running down your face, I miss your touch  
need your taste

can't go back now

Begging me you plead with me, wishing I would never  
leave,

almost at the door now

What can I do but stay with you you never mean the  
things you do

No I can't believe that

What you want it's never fair it's what you get you're  
never there

You're alone again

Your words fall on my heart and I'm losing ground

Your tears tear me apart but I don't want to turn around

Guess this is what I get for my leaving you...

Guess this is what I get for my leaving you...  
right now

I keep telling you that I'm leaving now

Somehow I'm still here

I want you to know I'm leaving right now

Guess this is what I get for my leaving you...  
Guess this is what I get for my leaving you...  
right now
