# "Walking Talking Drinking"

Visit "[Walking Talking Drinking](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I went out walking with myself  
I went out walking and talking to myself  
I went out drinking with myself  
I went out drinking and thinking to myself

yeah

I went out wandering by myself  
I went out wandering and pondering to myself  
I was out dreaming with myself  
I went out dreaming trying hard to believe inside myself

It's been a long, long way back to you  
It's been a long, long way back to you  
It's been a long, long way back to you  
It's been a long, long way back to you

I went out walking with myself  
I went out walking and talking to myself  
I went out drinking with myself  
I went out drinking trying hard to believe inside myself
