The sky tonight is black with war  
Death and decimation downpour  
Too late now to escape your fate  
Just live to die another day

Don't look back  
Save your breath  
Too late for them  
There's nothing left

Run for your life  
There's no end in sight  
Your blood sets ablaze  
It's the end of days

Stand and face the wrath of Thor  
No shelter for what's in store  
The horizon brings the storm from hell  
Consuming bodies of those who fell

Don't look back  
Save your breath  
Too late for them  
There's nothing left

Run for your life  
There's no end in sight  
Your blood sets ablaze  
It's the end of days

Don't look back  
Save your breath  
Too late for them  
There's nothing left

Run for your life  
There's no end in sight  
Your blood sets ablaze  
It's the end of days  
The end of days  
The end of days
