Funny how everything's here
Buyt your missing
Every minute that you're gone
Things aint clicking
I just hope I can find all the right parts to say
Everything that you want
Baby you'll get it
Even though it's the little things that's supposed to...
I just want you to know
What you've done to me, now

(Chorus)

I can't be without you lately
Need you all the time
And I can't do a thing without you
Say you'll forever be mine

So I guess I'll say it today x5

Everything I could be
Just with your blessing
She's the only reason

That you know I aint quittin'
Good or bad boo you know that I'm here to stay
How did I fall in love
Give me a reason
Staring in your eyes
Is a good enough reason
Right before I get a chance
You get away

(Chorus)

Girl I love you
And I need ya
Wanna please ya
For the rest of my life
Cuz I need ya
I will never leave ya
Cuz I can't abandon you

I love you
(I guess I'll say it today) x4

I love I love I love ya yeah
And I'll tell you that I love ya everyday
