Green grass say is true
Cause i have got my eyes on you
From where till is over don't where till is over
Is hanging on dawning what you .
It's been a long time what you are wanting
cause there are a lot if trees there
I don't ever understand I don't know why
cause there are a lot if trees there
I don't ever fail I don't know why
cause there are a lot if trees there
I don't ever understand I don't know why
cause there are a lot if trees there
I don't ever fail I don't know why
Green grass sky so blue I thought the things through
One way till is over
Won't wait till is over
Stand on dry land watch you .
Spend my way for a

cause there are a lot if trees there
I don't ever understand I don't know why
cause there are a lot if trees there
I don't ever fail I don't know why
cause there are a lot if trees there
I don't ever understand I don't know why
cause there are a lot if trees there
I don't ever fail I don't know why
cause there are a lot if trees there
I don't ever understand I don't know why
cause there are a lot if trees there
I don't ever fail I don't know why
cause there are a lot if trees there
I don't ever understand I don't know why
cause there are a lot if trees there
I don't ever fail I don't know why
