Does part of you want to say
There's a part of me over you?
No matter how long it'll take
No more leaving without you
So say what you want to say
But there's nowhere to run to
Part of me wants to say
There's a part of me over you
All right I said I'm ready to know
All right I said I'm ready now
x2
ooo oo o
Decisions you do or you make
I'm aware they can haunt you
Whatever you leave or you take
You can do what you want to
Forever and for a day
When I am without you something's missing
A welcome along the way
You should do what you don't do and just listen
All right I said I'm ready to know
All right I said I'm ready now
x3
All right I said I'm ready to go
All right I said I'm ready now
ooo oo o
Never know who you are
You're so unsettled now
When you get what you want
It'll all be better no doubt
But now you're ready to call
When all that wasn't was ours
When you get what you want
It'll all be better
