Bermula di Facebook
You I'm I dulu taktahu malu
I malas nak layan
So I buat taktahu

You terus cuba dan mencuba
Sehingga I jatuh cinta
Gatalnya diri you
Membuat I terjatuh

Bila kita dah start mengada
Kita selalu keluar sama
Borak panjang panjang
Makan dan tengok wayang

Sikit sikit je I merajuk
You selalu sabar pujuk

Tapi sebenarnya
I cuma test you saja

C/o:
Let me tell you that I love you
And I never wanna wrong you
Take my hand baby
Come, go through with me
Let me tell you that I miss you
And I never wanna lose you
You're my heart baby
My life is incomplete without you

Dalam pada I gembira
Sometimes I feel so sad juga
Cause you dah berpunya
But I always want you to be mine forever
Please be mine forever
