Now it's more than a feeling inside
And I, I can't pretend to go
A single breath further and I won't hide
Until You know

Tonight You make me feel alive
And I

If I lose everything You ever gave to me
And if nothing turns out right
If this whole world caves in, all that matters is
You make me feel alive

I tried to be the one to make it on my own
And does it show I'm hopeless with anything but You?
I'm learning what it's like to never be alone
Every moment, every moment shows

If I lose everything You ever gave to me
And if nothing turns out right
If this whole world caves in, all that matters is
You make me feel alive

And when there's nothing left to lose
And there's no one else but You I find
And I have never needed more
All I never asked you for is mine

If I lose everything You ever gave to me
Tonight You make me feel alive
And I

If I lose everything You ever gave to me
And if nothing turns out right
If this whole world caves in all, that matters is
You make me feel alive

If I lose everything You ever gave to me
And if nothing turns out right
If this whole world caves in all, that matters is
You make me feel alive

You make me feel
You make me feel alive
Now it's more than a feeling inside
