Remake originally covered by Sarah Slean

We're gonna do a song from our first record now, that was given to us on a cassette tape, a very different version, from a girl named Sarah Slean from Toronto, a song called Julia.

Can you see her standing there

Well she's trying to find just anywhere

The flowers in her hands but she doesn't know why

Offered is advice to you and all you do was fake it

And she's only yours tonight

Oh she never cries

And I know there's pain inside, there's Julia

Drowning in her own visions

Well She's begging the past to stay behind

Black cat in the night

Black cat in that sky

Offered is advice to you, you left but I don't blame you

And she's only yours tonight

Oh she never cries

But I know there's pain inside, there's Julia

Digging up the past

To cross that line

To bury it

One last time

Offered is advice to you and all you do was fake it

I know this pain inside there's truth but you just have to
face it

And she's only yours tonight

Oh she never cries, mother

I know there's pain inside, there's Julia, yeah there's
Julia yeah oh no yeah how no no how

There's Julia, yeah there's Julia, yeah there's Julia
