

Our Heart's Hero

"Monkey Brains"

Visit "[Monkey Brains](#)" on MotoLyrics.com

Making plans for your escape
Get between all the ricochets
Assume positions in the sky
Fly away with the butterflies
Rest your head on pacific grove
Lose yourself down in Mexico
Wanna taste of the monkey brains
Take a bite man don't be shy

They're comin' after you
They're comin' after you
It's all your can do
They're comin' after you

Got your file and your DNA
Blow the ship in the NRA
On the list with the FBI
Yearbook pics from the junior high
Camouflage in your orange and black
Soar above all the ground attacks
Safe and sound on this coastal plane
Celebrate with the cheap champagne

Generations trying to find a home
A thousand miles away from what they know
It's time to go, It's time to go
