Way, it's my  
Way out  
It's my way, oh  
Way out  
It's my way  
Way out  
Ohhhhhhhhhhhhhhhhhhhhh

It's my way  
It's my way out  
Ohhhhhh, ohhhhhhhhhh  
My way  
It's my way out  
It's my way out, out, way out  
Ohhh, ohhhh, ohhhhhhh  
My way  
My, my way out  
Ooooooooooooooh

Raine: Alright, nobdy sits down, everybody stands up.

Yeah yeah yeah  
My, yeahhh

Well I let go of the world I was holding  
A passenger that could not fly  
In search of souls  
In search of something  
Well let it go  
And let it slide  
Yeah yeah yeah yeah  
Yeah yeah yeah yeah

When I find out what went on  
We'll bring it back  
It won't be easy  
They won't believe how a man  
He could drown  
In a starseed, starseed  
Oh, whoa oh no

I hoped to find why the world wasn't glowing  
It's darker as we end this ride  
I've fallen back under the equator  
We're back inside, we're back inside

Yeah yeah yeah yeah  
Yeah yeah yeah yeah

When I find out what went on  
We'll bring it back  
But it won't be easy  
They won't believe how a man  
He could drown  
In a starseed, starseed  
Well oh no, oh no

And it's all so real, nothing, nothing

When I find out what went on  
We'll bring it back  
It won't be easy  
They won't believe how a man  
He could with out you  
Starseed over, nothing, nothing

When I find out what went on  
We'll bring it back  
It won't be easy  
They won't believe how a man  
He could with out you  
Starseed over

Nothing  
Starseed over

Raine: We, uh - And uh - I'm not lying, I swear to God.  
We've always felt, we  
Kinda started our whole thing in Montreal and Quebec,  
before - before - before  
We had a record deal, before we had a bunch of  
songs, before even Our Lady  
Peace, we started playing these crazy little clubs in  
Montreal and - It's  
Always, it's always felt like a second home to us, but to  
have this many people  
Here tonight is truly unbelievable, thank you very  
much. We uh - we - we
