Today we make tomorrow

Look around to what surrounds you
We've been waiting, staring in a daze for so long
You've spend your life to find a way through
Now you're here and all of your dreams are so gone

And set it straight
This will be what we make it

And we are tomorrow
We're more than meets the eye
And all we leave behind
Today we make tomorrow

And we are what follows
And now this is our time
Don't let it pass you by
Today we make tomorrow

And all the plans you meant to see through
Take a hold, you never know what you're handed
With every moment that you're given more
It's once you've given for, no second chances

And set it straight
This will be what we make it

And we are tomorrow
We're more than meets the eye
And all we leave behind
Today we make tomorrow

And we are what follows
And now this is our time
Don't let it pass you by
Today we make tomorrow

And when tomorrow comes we'll find it
As the day we left behind it
And when tomorrow comes we'll find, we'll find it
As the day we left behind it

And we are tomorrow
And we are tomorrow

And we are tomorrow
We're more than meets the eye
And all we leave behind
Today we make tomorrow

And we are what follows
And now this is our time
Don't let it pass you by
Today we make tomorrow

And we are tomorrow
(Today we make tomorrow)
And we are tomorrow
(Today we make tomorrow)

(It's today)
Today we make tomorrow
(Don't let it pass you by)
Today we make tomorrow
