It's not easy to talk it out.
It's so much easier, just to scream and shout.
And it's not easy, when love's in doubt.
I guess it's time, we talked it out...

Chorus:

So say, say what you mean.
And mean, mean what you say.
And have a little trust in me, that I won't walk away.
No....I won't walk away.

I hope you know I'm trying my best.
Although at times, this love is a test.
And I don't know where my heart is leading.
I'm trying my dear, to stop the bleeding.

So say... say what you mean.
And mean...mean what you say.
And have a little trust in me that I won't walk away.

I hope you know, I'm trying my best.
Although at times, this love is a test.
And I don't know where your heart is leading.
But I need you to speak, so I'll just keep pleading...

So say...say what you feel.
Feel...feel what you say.
And have a little trust in me that I won't walk away.

Bridge;

Here I am, in the dark again, how do you really feel?
Oh let me in. Let's start again. Maybe this time
it's for real...

So say... Say what you mean.
Mean... Mean what you say.
And have a little faith in our love,
And we'll find a way...and we'll find our
way...and well find a way.

(Repeat chorus & fade)
