"The Pressure"

Visit "[The Pressure](#)" on MotoLyrics.com

We keep on talking about things
We could've been so good
But you pushed me away time and again
You said "There's too much to comprehend"

Keep on, a working and working, a working, a work it on
out
Keep on, a working and working, a working, a work it on
out

Well I thought I'd heard something
But I let it go
When your best amounts to nothing, you have to let it
show

Take it down to the city, till we're down every night,
Made all the way to nothing, the pressure's got me
Don't wanna see tomorrow
Oh, I got what its like
Gonna make this feel a nothing, the pressure's got me
tonight

Keep on, a working and working, a working, a work it on
out
Keep on, a working and working, a working, a work it on
out

Yeah
Don't wanna see tomorrow
The pressure's got me
Yeah, the pressure's got me

Don't wanna see tomorrow
Oh, I got what its like
Yeah

(Funky funk)

(Keep on, a working and working, a working, a work it
on out)
(Keep on, a working and working, a working, a work it

on out)

Yeah, the pressure's got me

(Keep on, a working and working, a working, a work it
on out)

Don't wanna see tomorrow

(Keep on, a working and working, a working, a work it
on out)

Oh, I got what its like

Yeah

Take it down to the city, till we're down every night,

Made all the way to nothing, the pressure's got me

Don't wanna see tomorrow

Oh, I got what its like

Gonna make this feel a nothing, the pressure's got me
tonight

Keep on, a working and working, a working, a work it on
out

Keep on, a working and working, a working, a work it on
out
