I've been a couple places, and I've seen so many faces  
I've heard the voices speak to me in an awkward  
manner

Now I have you, at least you make feel as if I do  
We didn't even have to wait to hire a wedding planner

From the moment we met, it was like love at first sight  
It hit me like one of those many fists in a fight

There are no words in this world  
To describe the feelings that I go through  
When I'm with you (when I'm with you)

There is no way anybody can make me feel the way you  
do  
As long as I have you (when I'm with you)

Everything I used to do, I totally put aside

Everywhere I used to go, I would have gone into a fight  
With you by my side, a new life had begun  
Together we can laugh all day long and have fun

From the moment we met, it was like love at first sight  
It hit me like one of those many fists in a fight  
That I used to get into without you around  
Everything is different now, the plane hit the ground

There are no words in this world  
To describe the feelings that I go through  
When I'm with you (when I'm with you)

There is no way anybody can make me feel the way you  
do  
As long as I have you (when I'm with you)
