#### CHORUS

Hey, Attention. This is what we got  
Even when is hard Babe never give- up

#### VERSE1.

Am tryin to live a life  
Guided by my dreams  
Shape by the world  
that we live in  
Respectful to the laws  
and the rules that binds  
Be friendly to the people  
that i meet on the scene  
A smile on the face  
just to give a bright day  
Apologize to the people that  
i wrong out there  
Thankful to the folks that  
lift a weight on me  
Honest to a fact to the best that i can  
Resentful to the evil  
when i know they are vice  
I dont mean to be saint  
coz i got my own flaws  
But every time i try  
I try the best that i can  
oops--->

#### CHORUS

At times it even hurts to breath  
coz its hard  
The challenges are many and  
the solutions are few  
it feels like drowning  
in a deep blue ocean  
Missing in the desert with  
no way to get found  
Beaten in the body  
the soul, and the brain  
Weaken in the spirit  
the will and the faith  
It even hurts to think

Coz the brain feels hot  
when hope`s gone  
depression is what you got  
Becareful with the things  
you carry on your mind  
The pressure that they give  
can break your world apart  
So never loose the love.  
the hope, or the faith  
So keep the spirit high  
that is why, we say--eh

#### CHORUS 2

Everything with a start, has got an end  
Nothing gonna last forever(2x)

#### VERSE 3

Life is a battle and you  
need a strategy  
The way to the top maybe  
narrow but is there  
So long as you live, the  
battle is always-on  
Better not to quit  
better get it by the horn  
if you fight and run  
you gonna fight another day  
Many people cant stand the  
pressure that it takes  
Folks hold your head-up  
be the brave soldier  
Never be a quitter  
face-up to the battle.

#### CHORUS.
