They tried to tell me to stay away
But my mind didn't end up working that way
I thought I saw this coming,
But it made no sense
The lines were glowing with evidence

Tell me tell me,
Cuz I need to know
Where will I get oxygen if these trees won't grow?

They tried to show me that there's always a waste
But I depended on it all fading away
Sometimes it's easier to see through different eyes
The sight will uncover what's between the lines

Tell me tell me,
Cuz I need to know
Where will I get oxygen if these trees won't grow?
My lungs need it now
My lungs need it now
My lungs need it now...

The things they think they know
Could change everything
The things they think they know
Could turn this all around

Tell me tell me,
Cuz I need to know
Where will I get oxygen if these trees won't grow?

Tell me tell me,
Cuz I need to know
Where will I get oxygen if these trees won't grow?
My lungs need it now
My lungs need it now
My lungs need it now...

Tell me tell me,
Cuz I need to know (need to know)
Where will I get oxygen if these trees won't grow?
My lungs (my lungs) need it now

My lungs need it now
My lungs need it now...

The things they think they know
Could change everything
The things they think they know
Could turn this all around
