- VERSE 1 -

It's hard to find an instrumental
Thats says I love you

Especially when a girl like you
Has no time for such a fool

I c you in this high school
Like I wish I came high to school

Cause that's the only way
I'll probably have the guts to chaise you

But then I kinda gave you the message
And somehow that's something
You couldn't even bear to cherish

But then again
I remember
You and me
Were both born in November

A Scorpio and a Scorpio
I don't know if that's a good connection though

My rap flow is so cheap
I'm sorry if my message's slow

And when the light goes on
On my BBM
Just know

That damn girl
I wish you would say something like
"boi, you so funny
And I love you
Don't you know"

But not even when our team plays
Will you even message me though?

I used to go to your games
To watch you play
Around my main frame
And everything you do
Seems to attack my membrane

However you friends with
My colleagues
Or better yet
These alcoholics
Yet
You haven't yet once
Watched me play
It's so bad
I'm so sad
I had no purpose playing soccer hey

Cause my best support
Is you
And you never supported me
Even till this day today
But soon it be your birthday
And I wish I could come over though
Cause every time I wana visit
The only response I get is no

November 28 girl
I just want you to know
Whatever guy out there dates you
I'm happy
If you happy yo

- VERSE 2 -

It's hard to find an instrumental
That says I love you

Especially when a girl like you
Has no time for such a fool

I see you in this high school
Like I wish I came high to school

Cause that's the only way
I'll probably have the guts to chaise you

But girl the things you do
Are really just so special

I met you for the first time

And I thought that I was drunk on wine
Cause you really have a way
Of making my reality divine

But then again I realise
It's all just a coincidence

Cause we never even dated
And you said dating
Is outdated

And nothing comes from my compliments
Cause me and you had no accomplishment

But i first met you at the end of my first years
Accomplishment

When Grade 10
Was so different
Cause I no reason for living

I told you
I'm from Pretoria
With the swag like a lawyer
I backed all my phrases up
And eventually me and you
Were like runners up

And rumours spread about our love
And guys would talk about
You as their crush
And damn I hate you so much
Cause no girl
Deserves this much

Unless she's really my own
Unless I can take her home

Unless I can treat her
Like she better than me here
And though you somehow proved it
I never proved myself to you
As much as I tired it girl
Your interest just wasn't for me boo
And that's just how do

You overlooked the DJ
The rapper
The poet
The guy with all the words in his heart
But no courage

To show it
So now I made this song for you
So you can damn well know it's true

I might not really love you
I might not really need you
But November 28 Girl
Just know that
I still adore you

October 28, November 28, December 28
Nothing yet, but I'll wait (x2)
Two girls I both like with the 28, but this one's for
November
Cause dating her is no mistake (x2)
