

Thao & The Get Down Stay Down "Holy Roller"

I am a women of leisure
I've been looking for the end of want
I don't want it but I need it
Well come on baby why don't you give me some

It's too hard for habits
My patience is done with me
I want to live in times like touch
I want to stay where my temper beats

Holy roller, roll over me
I'm looking for something else to see
Lasts so long
Hurts so bad
But I want love in the aftermath
I want love in the aftermath

I've got mouths to feed and thoughts to think through
I've got words to keep and lies to make true
I've got mouths to feed and thoughts to think through
I've got words to keep and lies to make true

Holy roller roll over me
I'm looking for something else to see
Lasts so long
Hurts so bad
But I want love in the aftermath
I want love in the aftermath

Holy roller roll over me
I'm looking for something else to see
Lasts so long
Hurts so bad
But I want love in the aftermath
I want love in the aftermath
