I've been down this road 5 times before,
One more lock I fix to my door,
Make sure I don't get hurt no more.
Love her so much, I try too hard,
Sit back, relax, I'm just falling apart.
She's breaking my heart,

Lying to a heart that's sighing,
Watch the final threads start falling apart.
Crying from a pain I'm hiding,
Climbing, finding out, I'm right back at the start.
Falling apart

Let me tell you how, let me tell you how
I love you so much, I love you girl
