There's traffic on the northern line  
We say goodbye the final time  
Pretend that we meant something more than this  
When the memories you left behind  
Remind me you were never mine  
The lonely train you left without a kiss

The golden girl, the silver spoon  
The eyes like pearls that wept too soon  
Haunt me up until the day I die  
I climb aboard the sinking ship  
Biting on my bottom lip  
And wait for time to heal my pride  
But time was never on my side  
Me and you were just a ride

Seven weeks have come to pass  
I stumble on the photograph  
To see lucky man to take my place  
You were cloak and dagger from the start  
Twist the knife into my heart  
Watch my eyes bleed tracks upon my face

Me who lost the will to live  
You who lost the will to give  
Taking with the little left inside  
I climb aboard the sinking ship  
Biting on my bottom lip  
And wait for time to heal my pride  
But time was never on my side  
Me and you were just a ride

You lied, you lied, you lied, you liar

The golden girl the silver spoon  
The eyes like pearls that wept too soon  
Haunt me up until the day I die  
I climb aboard the sinking ship  
Biting on my bottom lip  
And wait for time to heal my pride  
I'll love you 'til the day I die  
Me and you were just a ride
