(Intro)

Where do you think you're going?
Somewhere from this place

I think I need to love you
Without a trail of pain

And sometimes I think you have
Gone a little far

But if we stay together
I don't want anymore scars

Cause I'm lonely
From up in hell
To the penny to the well
Don't care, I will tell

Cause I'm lonely
From what you think
Without a link
Don't make me sink

Where do you think you're going?
Somewhere from this place?

I can't quite remember
Who won that race?

And if you think I let you win
Then call yourself a disgrace

And if you think I'm tough yet
I haven't played my ace

Cause I'm lonely
From up in hell
To the penny to the well
Don't care, I will tell

Cause I'm lonely
From what you think
Without a link
Don't make me sink

(Bridge)

And I know
How it feels
To be let go
From me

But if you say
You can stay
Then don't go the other way

Cause I'm lonely
From up in hell
To the penny to the well
Don't care, I will tell

Cause I'm lonely
From what you think
Without a link
Don't make me sink
