Iâ€™ve been around, a thousand cities,
Swam across the deep blue seas,
Took part in the most far gone festivities
Vixens, sirens, deities, divinities

But ainâ€™t no place that Iâ€™d rather be,
But to be right here and youâ€™re with me,
If you shush my gibberish blathery,
You can still hear me say,
Say, say
Whoopy whoopy whoopy whoopy (x4)

Well in love, Iâ€™m a casualty,
Once was in pain and agony,
But the closer you got now babe the less the gravity,
Turning blasphemy, into rhapsody

Cz ainâ€™t no place that Iâ€™d rather be,
But to be right here and youâ€™re with me,
If you shush my gibberish blathery,
You can still hear me say,
Say, say
Whoopy whoopy whoopy whoopy (x4)

I canâ€™t contain my revelry
Of this new found chemistry
But there ainâ€™t no place,
That Iâ€™d rather be,
But to be right here babe,
And youâ€™re with me
Whoopy whoopy whoopy whoopy (x4)
