"Give You Love"

All the time I room when you were down
And now that you're all right I'm on the ground
Wonder, how did I become this vermin, Frau?
And how do I begin to turn around?
I thought it was okay to joke around
But no one's laughin' now, or so I've found
It's terrible to think that I messed it up
When all I want to do is give you love

Love...

You

Always wanted more

You

Had to have it all

You

Could not get it

You never did learn just to let it go-oh

You

Are wakin' from my dream

And the nightmare's all its been

Don't let it catch ya

You're never quite here 'cuz you're half asleep

I think of all the trouble going down

I think of where you're really headed now

I never saw the black clouds a-loomin' up above

I told you all I do is give you love

Love...

Love...
