I'm going to break and watch you fade away
You love to stop when you here me say
Cause what I need there ain't no covering
They wearin' kitty clothes when I explain

Say what you're feeling
Say something
Like you mean it

Wanting so much to be heard now
And you wanted so much to be seen
There going to send you down and back to school
Thought you were big but now you're small

Say what you're feeling
Say something
Like you mean it
Tell me how you're feeling
Say something
Don't just think it

I'm going to lay here awake all night
Say something
I'm going to lay here wasting time

Say what you're feeling
Say something
Like you mean it
Tell me how you're feeling
Say something
Don't just think it
Say

Say something
Say something
Say something
