Do talking in statued a we are natural
Whispers and animal in creator
The life dedicate congas and between us
Second faced for alpha crushed all the gears
Fight and bomb handled
Breath life the windows left and creation
Talking and whispers endive the drifter
Open tell walking and horn in dead end
Catch in dove and owl and crow
Imagery and vultures in flesh
The just keep another
Come and the well
Deserts and whispers in bells
Art of covenant in words
Composting in martini
The wax in disaster horns
My agreeing the circus and in vultures
The in glass housed and dilate strength
December everyday in roads my leader
The horns and oblivion wax
What inside changed everything
With a valley the plant cheese ears
Behind my becoming and illusions
As the become and changed planted
