The night is at it's peak, got the eye of a tiger  
Been this way forever straight outta my mumu vagina  
Theophilus divine, music my recliner  
Separate, hella great, multiply her and divide her  
This that new york nigga, belly of the monster  
I run laps so on stage I'm a dancer  
I inspire you, yeah I inspire you  
And water inspires me, see waters inside of you  
And the way the truce was made on the earth for us to  
breathe

Your a chick, over breeze, your a cough, I'm a sneeze  
This has come, brooklyn yeah we on ya  
Leave your hat in the fridge, I'm talkin' jefferey  
dauma  
Yeah, these tight jeans, I don't rock 48's  
Me on a verse is like you against 40 apes  
40 nights, 40 days, I bet I eat 40 steaks  
And I ain't mad, you can still rock the corny bapes
