And this here is my destiny
And it felt more fuckers death for me
Last night, evil stole my heart but somehow the feeling
resurrected me
So don't stop now keep testing me
And you can talk your shit but have a check for me
And if your whole team feel I don't deserve to be in hip
hop
Tell them they can get off my Herbie Hancock
It's more refresh than breath could be
And if you don't know I tell you what's next for me, for
me
From a bird's view, from the third view
In the sky without no curfew
From a bird's view, in the sky without no curfew
I know you've been waiting for the thunder
Let's give them the Indian summer
