I fell in love with a disco queen
In the heart of the city and a... scene
A long story short, chick... lost term... and a house to
the port
We took a trip down Mexico, and... shout myself like
plexico
Or with a mouth so high she was technico
Don't turn to a festival

You walk to the show, I...
Nothing more
The sky lit up the stars, we're miles apart
To look where...
Is that what you want, cause love is real
Just have a good time
Is that what you want, cause love is real
Just have a good time

Catch rest in the motel room
When the roosters call I escape this doom
The humming bird is the humming man
Six years later you will understand
I spoke 4 words from the last night, night, yikes
The... for another life or another man, damn

You walk to the show, I...
Nothing more
The sky lit up the stars, we're miles apart
To look where...
Is that what you want, cause love is real
Just have a good time
Is that what you want, cause love is real
Just have a good time

Try make the most of this
Don't throw it all away
She had to change her number twice
And no time to count the days
She a disco queen, party all night like the shit's clean
If you look those eyes, it might be me in the... skies

You walk to the show, I...
Nothing more
The sky lit up the stars, we're miles apart
To look where...
Is that what you want, cause love is real
Just have a good time
Is that what you want, cause love is real
Just have a good time

You walk to the show, I...
Nothing more
The sky lit up the stars, we're miles apart
To look where...
Is that what you want, cause love is real
Just have a good time
Is that what you want, cause love is real
Just have a good time
Is that what you want, cause love is real
Just have a good time
Is that what you want, cause love is real.
