Uh

Hey, hey what to say  
Intend to stop me  
this given day.  
And oh,  
don't live in fear.  
Set the mid bar  
that visits here.

Uh, It's gonna take the stars to convince me  
To prepare or to be far when it hits me  
You be here or you be gone at the new speed  
You a roam from the room and it gets me.  
Tick-a-h tick-a-h I want you  
Butterflies butterflies deep in to haunt you  
In a nice way, and you have a nice day  
And we both part ways and you feel hardly safe  
Expect change and you protect names  
And you say emotions gonna be the exchange  
For all the lovers in the house tonight  
If you feeling good than get frowst tonight  
Tonight, tonight, tonight, tonight, come on

Hey, hey what to say  
Intend to stop me  
this given day  
And oh,  
don't live in fear,  
Set the mid bar  
that visits here.  
And uh-oh,  
who's gonna help you now?  
What the mystery  
in this house  
And no,  
don't blame my child.  
He would attempt to die for  
you to the end of days.

We're pressed together when we're side by side.  
You hold me down baby door by door.  
Uh, I got a feelin' we should leave this town.  
Try with a run in my four-by-four.  
Movin away would be hell for me.  
I can't explain the way you smell to me.

Hearing the wind let's hear it again  
With sibbolese and melodies seronatin' begins  
Take time, get mail to them  
Laying a tent, get hills again  
Hey friends, because it because us.  
how the holiday got her.  
I make her proper and now we're enemy  
Chick-ahh ahh so innocent  
I'll see you later but do me one favor.  
Promise to be a good neighbor. 5x

Hey, hey  
what to say.  
Intend to stop me  
thus given day  
And oh,  
don't live in fear,  
Set the mid bar
