I really want you, want you for myself
And no one else

I'm not tryin' to be stingy
But I want you to come home with me
You don't know me but you gon' miss me
Take my hand, rest is history
Come up on me girl
And let me whisper in your ear
Tell you things you'd like to hear
In my life I have no fear
Only him, only God that is again
Feel the breeze, touch the wind
Kiss my lips, let's make sin

Let's just let's just settle in
Learn and grow
Close the door
Touch the floor
Let me know please

I really want you, want you for myself
Or no one else

This is forever
Making the dance floor turn to fire
When you see me, three wishes
I'm your genie
Sweet kisses girl believe me
Lips stained pink
Black hair and your bikini
And I'm wonder like Stevie
When you dream do you see me
And it seems just so easy
It don't take too much to please me
Huh huh I'm your huh I'm your dollar
In me you trust, in me you lust
In you I bust aah

Uh girl I seen a lot of beauty before
But yours is one that I can't ignore

It's doing something great to me
Uh mm you make me greedy so I just want more
So much that I cannot store
I swear that it will bring me some better days
I really want you, want you for myself
Or no one else

This is forever
Making the dance floor turn to fire

Come up on me girl
