It's really a very simple idea
Take a few chords,
click loud and clean
There's no need for loads of money,
there's no need for a time machine
Just be so very honest
and we'll come out fresh and clean

Bababadabada
Bababadabada
Bababadabada

It's really a very simple fact
You'll sell records if you look like that
There's no need for hoods and veils
There's no need for a smoke machine
Just look us in the eyes and tell us how you feel

Bababadabada
Bababadabada
Bababadabada

Bababadabada
Bababadabada
Bababadabada

And I hate you!
And I hate your friends!
And I hate everything that you believe in!
And I hate nuwave
And I hate witch house
And I hate everything that you believe in!
