I feel the waves breathing on my face  
Can you?  
Can you?  
I hear the leaves blowin in the trees  
Can you?  
Can you?  
Take it as were fools  
Can you see the truth?  
And I've been trying for way, for way, for way, for way  
to long  
And now it's clear so glad were here and goin strong  
And I hope that fire fills and gets much higher  
To you  
To you  
And I wish that we could fix the old machines  
Do You?  
Do You?  
Take it as were fools  
Can you see the truth?  
And I've been trying for way, for way, for way, for way  
to long  
And now it's clear so glad were here and goin strong  
And I know my friends will be here to the end  
Will you?  
Will you?  
And I now that ill make it out alive  
Will you?  
Will you?  
Take it as were fools  
Can you see the truth?  
And I've been trying for way, for way, for way, for way  
to long  
Ad now it's clear so glad were here  
Take It as were fools  
Can you see the truth?  
And I've been trying for way, for way, for way, for way  
to long  
And now it's clear so glad were here and goin strong
