Gray is better than blue / I don't see why you must
choose

I start to think that it's true / don't you think
it's all in your head

The moon replaces the sun / get off your feet and
move on

When all the day's work is done / I would help you
but

Go and make my heart sink right down to the bottom of
the blue ocean

and you can't see that for you it's me and I
can't explain myself any better

In the shadows we stay / I spend my time in the light
It's hard to see we're okay / you don't see
anything at all

You choose the way that you live / when you start to
come to your senses

You've learned to take more than give / just come
and find me

Go and make my heart sink right down to the bottom of
the blue ocean and you can't see that for you
it's me and I can't explain myself any better

Oh Lord it's sweet, so sweet you chose me from all
of the others and I saw nothing in you
that reminded me of my mother and when I find a
bride I'll turn off the lights inside hoping you'll
think no one's home
