

## THOSE "Always Late"

Visit "[Always Late](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Every day's the same killing old convictions  
You're faster than a rollercoaster without restrictions  
Trying not to say what people used to tell you  
It's just a way to forget the things they teach you  
theres no solution just contradiction  
Too much confution so what's you'r damn position

Look around there's no one else you know that's in your  
head  
Stop trying to control the time we know you're always  
late  
You can do it, I know you'll never do it 'cause this world  
will be the same  
There's no answers in your head unless you run away
