It's overwhelming how you know,
How you know about your own soul
It's overwhelming how you don't know,
How you don't know about your own soul
The truth was written in lemon
This lies and games, they came by your throat

You wanna play, wanna play
So let's play
You wanna play, play
A little game
Belive me I, Belive me I,
Belive me I know that game

You wanna go, wanna go,
Wanna go now
You wanna go, wanna go,
Wanna go now
You wanna go there's the door
You wanna go there's the door

It's overwhelming how you know,
How you know about your own soul
It's overwhelming how you don't know,
How you don't know about your own soul
The truth was written in lemon
This lies and games, they came by your throat

You wanna play, wanna play
So let's play
You wanna play, play
A little game
Belive me I, Belive me I,
Belive me I know that game

You wanna go, wanna go,
Wanna go now
You wanna go, wanna go,
Wanna go now
You wanna go there's the door
You wanna go there's the door

You wanna play, wanna play
So let's play
You wanna play, play
A little game
Belive me I, Belive me I,
Belive me I know that game

You wanna go, wanna go,
Wanna go now
You wanna go, wanna go,
Wanna go now
You wanna go there's the door
You wanna go there's the door

You wanna play, wanna play,
So let's play
You wanna go, wanna go,
Wanna go now
You wanna play, wanna play,
So let's play
You wanna go, wanna go,
Wanna go now

You wanna go, you wanna play, you wanna go,
So let's play, so let's play, so let's play.
