Let's go, let's go
We've got this party going on
Come on, come on
Why don't you let yourself go

You're so afraid of feeling this
You're so afraid of losing you
Can't you see I want you?
You don't believe in sadness
Can't you see I want you?
'Cause you don't believe in sadness

You should know by now, why don't you like your self?
You should know by now, why don't you like your self?
You should know by now, why don't you like your self?

Let's go, let's go
We've got this party going on
Come on, come on
Why don't you let yourself go

You're so afraid of feeling this
You're so afraid of losing you

Can't you see I want you?
You don't believe in sadness
Can't you see I want you?
'Cause you don't believe in sadness

Let's go, let's go we've got this party
Let's go, let's go we've got this party
Let's go, let's go we've got this party
Let's go, let's go we've got this party
Let's go, let's go
