(verse 1)

The night as the noise hit the sky
under the stars, under the moonlight
Your sweet sound is screaming to life
A flood of love, a tear in time

Ohh, Ohh...

(verse 2)

Waiting in line 'til I single you out
I saw your bright eyes
Under the spotlight
This pulsing heart, in my head, in my hands
A summer nights dream became reality

(chorus)

come back, baby
i'm on to play your favourite song
just don't forget me
come back, baby, i'm on.. i'm waiting too long

This gravity, my heart is getting heavy
it's pulling me, to where you'll always be
and everyone, keeps singing all around me

ohh, ohh..

(verse 3)

Your soft skin, it breathes me in
I feel your hips, i kiss your lips
we search around and we find ourselves
In a new place, it's only your face

(chorus)

come back, baby
i'm on to play your favourite song (song.. song)
just don't forget me
come back, baby
i'm on.. i'm waiting too long
ohh, ohh, ohh

(chorus from this gravity...) x2

end with ohh, ohh...
