[Verse]

It's like a wind of the force,
Drop down on me, Lord forgives i dont but i aint going
like this,
Pull the trigger on me, Let my brain wash this,
I aint going nowhere i die like a dying breed,

If you aint got a test for me,
i'll go hard I'll just stand here and rise my feet,
But i couldnt, My last time has taken my breath,
Am tired, i am losing sight, i am condemned beneath,

My world has gone silent,
Am cold, Zero current,
Who ever thought am back you'll never get to have it,
Pain in my heart never stops, Would you have it,
Lord forgive my soul i still wanna have it,

I rise up like birds in here,
Light from the sky i hear the song played in here,
Clouds get wide, Spotlight in the day light,
Let the wings spread right, God i am here or it's just
not?

[Chorus]

Ohh If I decided,
I rise up alone,
I see that light comes when i guaranteed am gone,
I now see the light shining,
Whenever I go i am just burning...burning...burning!!!
Is this the way if i lost my mind

Is this the way if i lost my mind

[Verse]

I had a dream now it's gone, Couldnt take it to the
throne,
I believe i was wrong,
