Hey you what's your problem I been mystified
You might come from a different city body talks just
like mine
Some things get misunderstood and we can't stop the
fight
But there's one thing that we don't disagree on putting
right

Makin' up, makin' up by makin' love
Oh, makin' up, up, makin' up by makin' love

Hey I don't need to be teased I'm no suicide
You might think I'm on the edge just about to dive
Don't move back or turn around, when you say you've
gone for sure
'Cos every night when talk gets cheap, you still come
back for more

Makin' up, makin' up by makin' love
Oh, makin' up, up, makin' up by makin' love

Hey little dream maker you can stick the cream
I've abused so many times I don't believe in me
It's the best if I suggest and you just try to please
There's one thing we both agree can end hostility

Makin' up, makin' up by makin' love
Oh, makin' up, up, makin' up by makin' love
