

The Outfield

"Somewhere in America"

Visit "[Somewhere in America](#)" on MotoLyrics.com

Just play the game and throw the dice
You might not win but you just can't lose tonight
Just watch this fairy tale unfold
You won't believe all the things you've been told
Young or old

Somewhere in America
Somewhere in America tonight

Another town another place
Another name but you don't know the face
A joker deals and makes the rules
A game of chance a game that was made for fools
Like me and you

Somewhere in America
Somewhere in America tonight tonight

Don't wave a flag unless it's white
Don't make a noise unless you're prepared to fight
Wrong or right

Somewhere in America
Somewhere in America tonight tonight
Somewhere in America
Somewhere in America tonight tonight
