Will I see your face on the otherside, will I hear your  
voice

Will I recognize  
Your pretty smile, dark brown eyes  
On the otherside

Weâ€™ve been working on this so long, is it worth it  
Or are we wrong?  
Will we keep what we make or will it all be gone  
On the otherside

I donâ€™t wanna lose you, I donâ€™t wanna miss you  
like I do  
I donâ€™t wanna wait for you anymore  
I donâ€™t want fool you, I donâ€™t wanna hurt you like  
I do  
I donâ€™t wanna wait for you anymore  
What are we waiting for

If you make it first to the otherside, will you wait for me  
Will I decide?  
If I can hold this road for the long, long ride  
To the otherside
