The alarm goes off, I punch the clock
I slide off your side of the bed
Toward the coffee pot
It's the same routine, as the day before
I put on my jeans, button up my shirt
And I'm out the door

Then I get on with gettin' over you
Life goes on, the world don't stop
For a heartbroke fool
This is my new job, it's what I do
From dusk 'til dawn, I get on with gettin' over you

When it's quitin' time, I punch the clock
Then I head out for the company
Of an old jukebox
It's the same routine, as the night before
I down a few drinks with your memory
And I'm out the door

Then I get on with gettin' over you
Life goes on, the world don't stop
For a heartbroke fool
This is my new job, it's what I do
From dusk 'til dawn, I get on with gettin' over you

This is my new job, it's what I do
From dusk 'til dawn, I get on with gettin' over you
From dusk 'til dawn, I get on with gettin' over you
