"I Need You"

Visit "[I Need You](#)" on MotoLyrics.com

I need you to help me find my way
I need you at the end of the day
I need you when I'm searching for a sign
I need you when I'm way out of line
I need you to help me to be strong
I need you like a singer needs a song
I need you like the darkness needs the light
I need you in the middle of the night
The road's full of dangerous curves
We don't wanna go too fast
We may not make it first
But I know we're gonna make it last
I need you when I'm up on the stage
I need you help me rattle my cage
I need you when I'm 10 feet off the ground
I need you to help me get back down
